EDUCATION

G H Rasoni College of Engineering and Management (GHRCEM), Nagpur, India
Bachelor of Engineering – Artificial Intelligence & Machine Learning

Aug 2023 – Jun 2028

Bhavan's School, Nagpur, India
Senior Secondary & Secondary Education

2010-2022

SKILLS SUMMARY

Programming & Scripting: Python, SQL (Basic)

AI & ML: Prompt Engineering, AI Tools, Generative AI Applications

Data & Analytics: Excel, Google Sheets, Development & Automation: API Integration, Workflow Automation, AI-based Systems

Soft Skills: Leadership, Public Speaking, Team Management, Critical Thinking

PROJECTS

AI-Based Fire Evacuation Module

Designed an intelligent evacuation assistance system integrating sensors, circuit design, and AI-based decision logic. Prepared complete project report, system architecture, and implementation workflow.

Water Quality Monitoring System

Developed a real-time monitoring system using TDS, Turbidity, and Temperature-Humidity sensors with RD-9 kit to assess water quality and environmental conditions.

Hostel Complaint Management System

Proposed and designed a web-based complaint tracking system enabling students to raise, track, and review maintenance issues with transparent resolution workflows.

Migraine Detection using Machine Learning

This application predicts migraine risk based on clinical and blood data using a Random Forest Classifier.

Sign Language Detection Using Machine Learning

This project uses the power of machine learning and computer vision to recognize sign language gestures in real-time, aiming to bridge the communication gap for the deaf and hard-of-hearing community.

certification

CodeCraft

I participated in CodeCraft 2025 Challenge at GH Rasoni, Amravati University—an event focused on AI Prompt Writing & Code Debugging, testing creativity and problem-solving skills

Augmented Reality (AR) and Virtual Reality (VR)

I had the amazing opportunity to attend the 2-day hands-on training program on Augmented Reality (AR) and Virtual Reality (VR) at GH Rasoni College of Engineering and Management, organized in collaboration with GeeksforGeeks & the Coding Club.

UI/UX Workshop

I had an incredible experience attending the UI/UX Workshop organized by Jarvis Forum at GHRCE. The session was insightful, hands-on, and truly enhanced my understanding of user experience and interface design.

Certificate of completion: freedom with AI

I have obtained a new certificate:IOS 9001-2015 from freedom with AI

Certificate of completion: generative AI

I have completed introduction to generative AI studio

EXTRA -CURRICULARS

Active Member – ToastmastersEnhanced communication, leadership, and public speaking skills through regular sessions and speeches.

Web master, Design head , ARTIFICIAL INTELLIGENCE DEPARTMENT, GHRCEMN Actively involved in hackathons, AI competitions, and technical workshops.

COORDINATOR AT ENGINEERING INDIA, NAGPUR

Social Work & NGO InvolvementMember at Babulalji takkamore smruti sansta, Contributed to social initiatives inspired by a strong family legacy of public service and social leadership.
